All percentages are of October Enrollment, ethnicity percentages shown are students and incidents of that ethnicity divided by the count of students enrolled in October of that subgroup.

*Discipline counts and rates are suppressed where enrollment falls below 6 students. Percents based on a small number of students are not statistically sound and do NOT support comparison.

¹ For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspension rates. However, for Alliance HS (shown in PPS Alt), an alternative high school serving 16- to 21-year olds previously unsuccessful in traditional high school programs, the total number of students served during the year was many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Pioneer Programs (shown in PPS Special), similarly throughout the school year, therefore October Enrollment is not a good representation of the total students served.

Major Discipline Referrals are out-of-school suspension (exclusion from school for at least one but not more than 10 days) and expulsion. Counts of students referred are unduplicated within a school. For example if a student at one school received two out-of-school suspensions and one expulsion, that student will be counted once in the student ro
