

WHERE ARE WE NOW? WE HEARD YOU & WE'RE LISTENING.

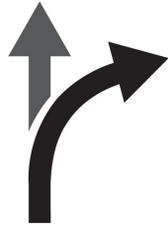

HOW DID WE GET HERE? PROJECT MILESTONES & SHIFTING PRIORITIES

QUESTIONS? COMMENTS?

WHAT DOES THIS MEAN? THE NEW PLAN

NEW DIRECTION

STUDENTS STAY ON SITE DURING CONSTRUCTION.

BUILD A NEW SCHOOL & DEMOLISH THE 1909 BUILDING.

No Swing Site!

Students will remain on site in existing buildings for the duration of construction.

Demolish 1909 Building

All existing buildings will ultimately be demolished, including the 1909 building, to accommodate a new building and new fields.

New Fields Timeline

*Completion of new track, football field and tennis courts by Fall 2029.
Opportunity for Baseball & Softball fields to be completed sooner*

New Building Timeline

*New building to be complete for the Fall 2028 school year.
Today's 4th graders will be the first freshman class in the new building*

Fields Temporarily Unavailable

Existing track, football field and tennis courts will be unavailable during construction. Use off site facilities for these functions.

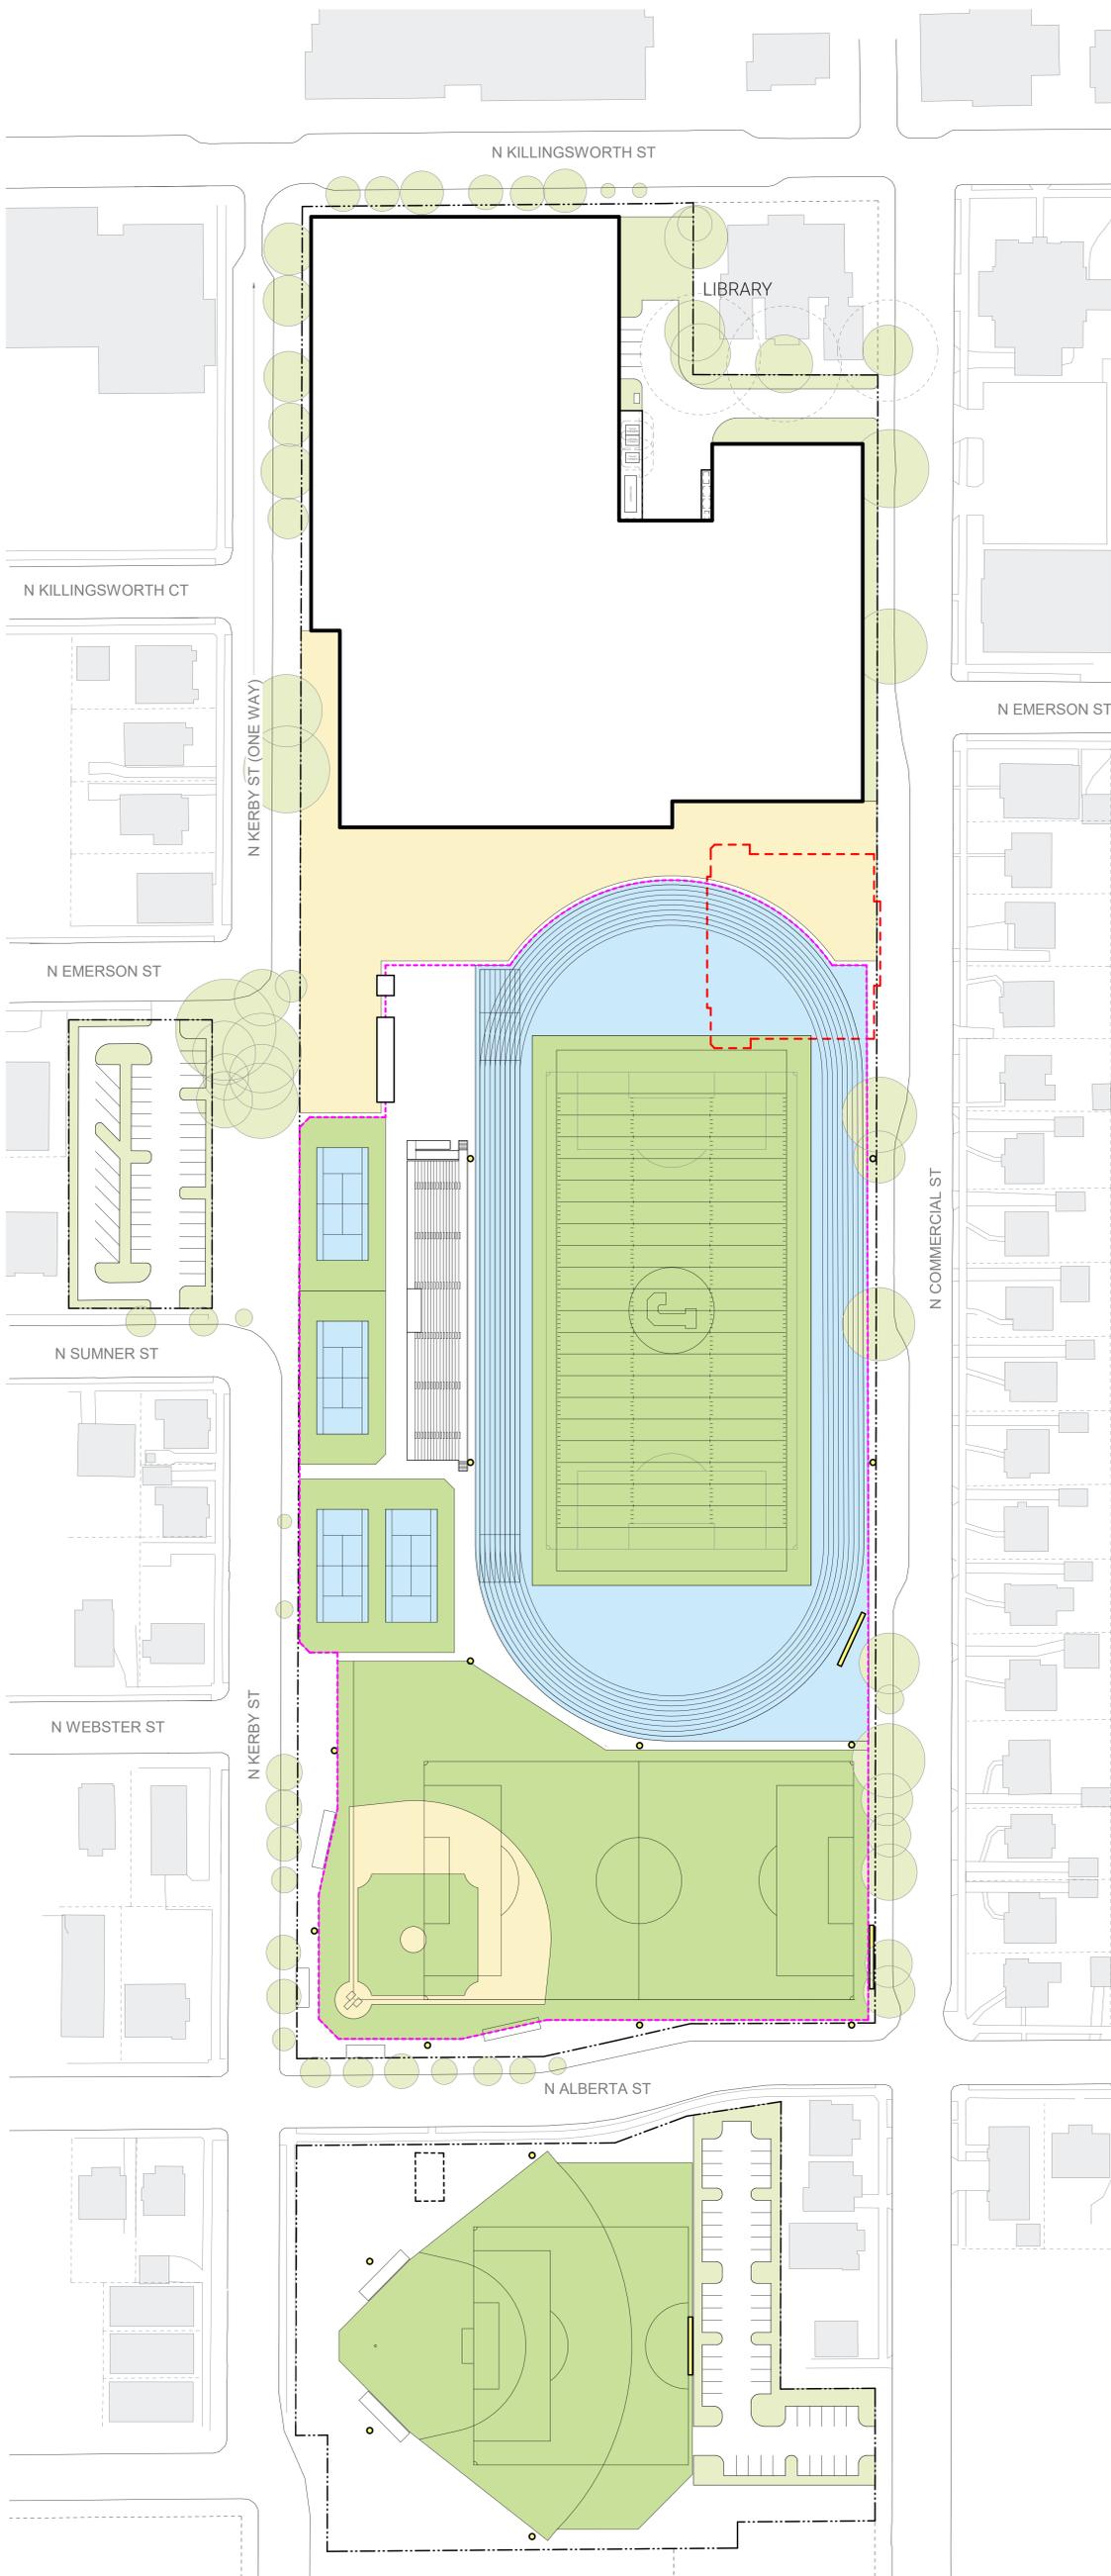

Don't Erase JHS History!

Implementation of Cultural Placemaking in new school and throughout the campus to honor the rich history of Jefferson HS.

QUESTIONS? COMMENTS?

NEW BUILDING ON KILLINGSWORTH.

Construct a new building on the north end of the site.

SITE PLAN

OPPORTUNITIES:

Grab a sticky and please add any opportunities we might have missed!

- No basement! (cost savings)
- Groups play fields together south of the building
- Schedule achieves completion of new school in Fall 2028
- Responds to the neighborhood context; i.e. adjacent to institutional vs residential buildings
- Strong relationship to PCC Middle College
- All instructional spaces can have access to daylight and views
- Maximizes number of classrooms with north/south solar exposure (most optimal)
- Leverages wider pedestrian sidewalk on North end of Kerby
- Efficient program stacking within structural bays
- Option for completing Baseball/Soccer and Softball fields early in construction
- Retains current JHS pick up and drop off (construction logistics)
- Truck waiting area along Commercial (Construction logistics)
- Staging / Access strategy for construction logistics
- Options for on-site construction parking (construction logistics)

CHALLENGES:

Grab a sticky and please add any challenges we might have missed!

- Lose access to existing track, football field and tennis courts during construction
- Proximity to Killingsworth power lines
- Potential for challenges with proximity to existing Library
- Limited options for on-site construction parking (construction logistics)
- Access along Kerby will be challenging (construction logistics)

LOOKING AHEAD. ENGAGEMENT.

Current outline for proposed community outreach.
